

Cash Flow Creation Secrets Course:

**ADOPTING A CASH
CREATION MINDSET**

Welcome to the program! For the next four weeks we are going to examine where your money is coming from, where it's going, why you want more of it, how much and how you'll handle it once it arrives.

In order to get where you want to go you've got to understand where you are and more importantly, how you got there. Use this worksheet to kickstart the process of gaining clarity on where you are currently on the money path.

Lesson 1 - Part 1

What specifically do you want money for? *Money loves inspiration!*

Do you have a particular goal in mind? If not, create one and describe it in detail! For example: What are you doing? Who are you with? What are you seeing, experiencing, eating etc? Put in as much detail as possible. *Money goes where your attention lie*

Part 2 - Can you implement a piece of your goal now? I'll use myself as an example: This year I turn the big 50 and I've decided I want celebrate it in Paris France. Once I made the decision I was able to get really clear and focused on a variety of action steps to take. **Money likes decisiveness.**

1. I immediately started a Pinterest Board and started pulling images illustrating what type of hotel I want to stay in, what kinds of foods I want to eat, and experiences I want to have on my trip. **I will look at that Pinterest board and add to it everyday.**
2. Next, I made the board public by sharing it via my other other social media platforms, **money can't find you if you're hiding.** Once you decide on a goal you've got to put yourself on blast and tell the world. For starters doing so creates accountability and let's the world that you're serious and ready to get busy.
3. Third, I visited the travel website Orbitz and researched how much the trip would cost. Based on the type of hotel I desire and flight arrangements, plus spending money the trip will cost about \$4000. Now I've got hard numbers to work with. **Money likes clarity!**
4. Fourth, I setup a specific account and named it Paris 50! I will deposit money regularly into this account thereby putting physical energy behind my intention. **Money likes purpose and intention.**
5. Everyday I will spend some thinking about my trip and brainstorming ways to create the money to make it a reality. Once you give your mind something to work on it starts looking for solutions. **Money likes attention and rewards you for doing so.**

Bonus: *Be open to surprises and synchronicity because once you take action they will happen!*

Now it's your turn, use the space to below to write down your next 3 - 5 "first step" action steps you will take immediately to create tangible, trackable energy towards your goal.

Part 3 - Time To Do Inventory

In order to create more cash flow, you've got to look at where the money you currently have is coming from, so let's get started.

How are you making money now? If you more than one source, (and you should :) list them on the spaces provided below:

Do you have multiple income sources and if so, how many different ways do you have to create money at any given moment?

Who are you serving and how? **We'll be diving deeper into this during the remainder of the course.**

Bonus Exercise:

Starting tonight document every penny that's coming to you, either you can write it down in a special notebook or do what I do and create a spreadsheet in Google Docs and name it **Cash Receiving Acknowledgement**

I've provided with access to a **Cash Receiving Acknowledgement form** in the member area of the course.

In preparation for Module 2 at the end of the call we will launch a plan to uncover what your customer wants and is ready to buy now.
